

**APOLLO**

FABRICATION GROUP PTY LTD

---

2023 CORPORATE PROFILE

# ABOUT

---

## AN AUSTRALIAN MANUFACTURING SUCCESS STORY

Founded in 2000, **Apollo Fabrication Group Pty Ltd (Apollo)** is an Australian owned and operated family business managed from their headquarters in Young, NSW.

Having started out manufacturing specialist waste management equipment, the business has evolved to become a leader in the design, fabrication and installation of large, complex structural steel for the leading names in Australia's construction industry.

# MEET THE LEADERSHIP TEAM

APOLLO IS LED BY A TEAM OF EXPERIENCED AND HIGHLY QUALIFIED INDUSTRY LEADERS WITH MANY YEARS OF EXPERIENCE DELIVERING COMPLEX STEEL CONSTRUCTION PROJECTS.

## TECHNICAL EXPERTS IN STEEL

**Nathan Jackson**  
Sales/Finance Director

**Caleb Jackson**  
Operations Director

**Hayden Ferguson**  
Estimating Manager

**Brett Kennard**  
Senior Project Manager

**Danhill Bansil**  
Drafting Manager

**Paul Brown**  
Site Manager

# THE APOLLO STORY

SO FAR...

2000

## FOUNDED BY W.A FARMER

A farmer for most of his life, Terry Jackson spotted an opportunity to manufacture specialised waste handling equipment for agriculture and industry.

2006

## FROM LITTLE THINGS...

After building their capabilities on smaller projects, Apollo won it's first major project as part of the team building New Creation Church in Canberra.

2003

## OPPORTUNITY KNOCKS

Terry, his wife and two boys packed up to seize the opportunities in regional NSW, moving to Young. His sons Caleb & Nathan joined the growing business.

2007 - 2009

## ...BIG THINGS GROW

Word of mouth attracted more complex architectural design projects like Warragamba Dam, The Scots College, SCG Trust Office & Caringbah High.

WE'RE LOOKING FORWARD TO THE **NEXT CHAPTER.**

2015 - 2018

**DOUBLING PRODUCTION FACILITY**

Apollo's plant grew to 2400sqm and they began global steel importing. Projects include Hornsby PCYC, Wellington Jail, Norwest Hospital, Parramatta Leagues Club, UTS Central & Dubbo Hospital.

2015 - 2018

**EQUIPPED FOR CONTINUED GROWTH**

Apollo has built a foundation to handle even larger projects including the iconic Sirius Building, a landmark development alongside Sydney Harbour Bridge.

2010 - 2014

**BUILDING LOCAL MANUFACTURING**

Apollo invested in a 2200sqm facility to enable major projects like Sydney Airport (T1), Emmanuel Baptist Church, Bunnings, Newington College, Coles, Royal Prince Alfred Hospital and Sikorsky.

2019 - 2022

**AUTOMATION & EDUCATION**

Apollo invested in state-of-the-art automation tools, a purpose built 3500sqm training facility and new 600sqm office, Projects include Barker College, Ashfield Aquatic Centre, Wagga Hospital, Greenacre Processing Plant and more.

# OUR DIFFERENCE

**At Apollo our passion is tackling the most complex steel challenges in construction.**

As your trusted partner, we collaborate with you to win, design and execute successful projects. Here's how.

NEPEAN  
ARTS CENTRE

## Capacity

With a team of industry experts and a world-class local manufacturing facility, we are equipped to deliver major steel structures from design and sourcing to logistics and financial strength.

## Design

Whether architectural or structural engineering, we collaborate with architects, engineers, builders and specialist trades people to create functional, buildable and beautiful solutions.

## Solution

While steel may only be part of your puzzle, we invest the time to understand your broader vision and take ownership of our deliverables from start to finish - no passing the buck.

**Quality**

Quality is at the heart of everything we create. Our processes are backed by the industry leading ISO certifications for the provision of steel design, fabrication and installation.

**CAPACITY**

With a laser focus on the design, fabrication, coating and installation of complicated structural and architectural steelwork, we have the in-depth expertise to bring your vision to life.

**TRACK RECORD**

Having worked on hundreds of projects since 2000, we understand how to deliver flawless quality, precise engineering and seamless installation on time and on budget.

**PARTNERSHIP**

Apollo partners with tier one construction companies on iconic projects across Australia. As well as our in-house experts we have a trusted network of specialist partners to get the job done.

**PEOPLE**

In our 600sqm training facility, we offer apprenticeships and skills development to attract, retain and upskill specialised talent from project managers and designers to welders and painters.

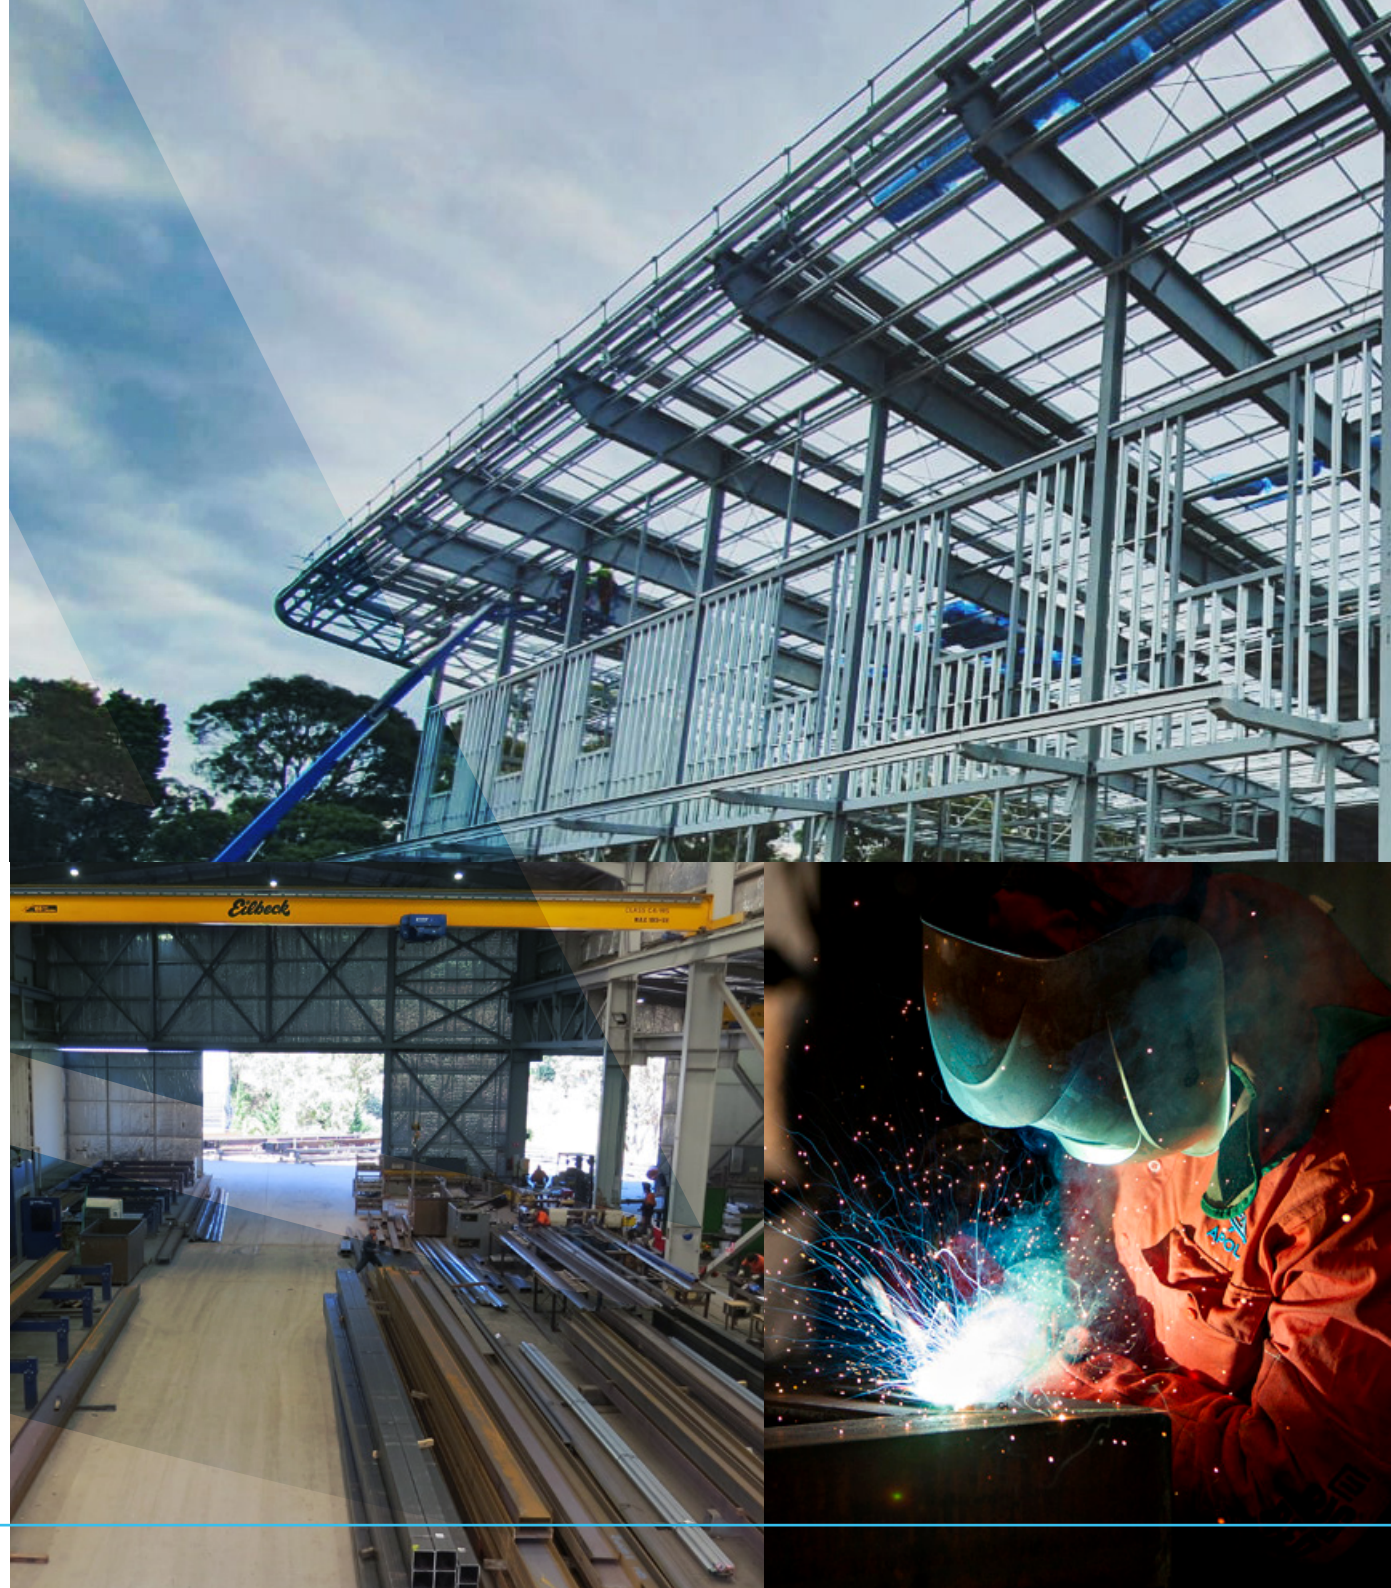

# SOLUTIONS

CAPACITY. DESIGN.  
SOLUTIONS.

From sweeping curved roofs and high rise lift shafts to striking stairs, structural foundations, grand architectural features and everything in between, **with Apollo the only limit is your imagination.**

With a reputation for quality built over two decades, we have a proven track record of commercial, industrial, retail and residential projects across sectors spanning healthcare, education, defence, government, leisure and community.

## OUR SUITE OF SPECIALIST SERVICES INCLUDE:

- Design & Drafting
- Steel Processing
- Steel Fabrication
- Steel Installation
- Surface Treatment
- Cranes & Logistics
- Protective & Fire Rated
- Coatings
- Shop Detailing

## OUR EXPERT DELIVERY TEAMS INCLUDE:

- Project Managers & Coordinators
- Site & Construction Managers
- Leading hands
- Estimators
- Safety Officers
- Technical Draftspeople
- Expert fabricators, painters, riggers, sand blasters, welders, coaters, installers, boilermakers etc.
- And hands-on Directors.

# WORLD CLASS FACILITY

CONTEMPORARY DESIGN.  
STATE-OF-THE-ART  
MANUFACTURING.

**Apollo** has invested in a state-of-the-art manufacturing plant where we design, manufacture, coat, store and deliver our steel structure. **For you, it means capacity and quality you can depend on:**

- 3,500 sqm workshop – manufacturing, welding, blasting, coating
- 10,000 sqm storage yard – raw material and structure storage
- 600 sqm office – design, engineering and project management
- Cutting edge construction and automation tools for accuracy and efficiency
- Capacity to produce hundreds of tonnes of steelwork per week

# SAFETY & QUALITY AT EVERY STAGE

For everyone at **Apollo**, **safety and quality is a core part of their responsibility**. We call this company-wide quality control. Much more than simply inspecting for errors in finished parts, our approach is to **build in quality and safety at every stage**, with a mindset of continual improvement.

With strictly standardised processes across our supply chain, **we are able to identify and resolve issues quickly, while maintaining consistent quality, safety and timeliness**. With our own manufacturing facility, equipment and team, we have total control over the operations and output, **so we take full accountability for quality and safety**.

WE OFFER ONGOING WORK HEALTH AND SAFETY (WHS) TRAINING AND DEVELOP A TAILORED SAFETY PLAN FOR EVERY PROJECT TO MAXIMISE THE SAFETY OF OUR EMPLOYEES, PARTNERS AND SITE VISITORS.

PROJECT:

# TJX WAREHOUSE

MARSDEN PARK, NSW

# TJX WAREHOUSE

STATE-OF-THE-ART OFFICE,  
AWNINGS & WAREHOUSE

**TJX Distribution Centre** is one of the industrial facilities completed by our construction partner FDC Construction & Fitout. It is a highly sophisticated site designed for large-scale product processing.

**Apollo** designed and installed approximately 800 tonnes of structural steel and 50,000 linear metres of steel purlins, forming a core element of 4,000sqm of awnings, 42,000sqm of warehouse and large modern office space.
