

APOLLO

FABRICATION GROUP PTY LTD

STRENGTH. SUPPORT.
INNOVATION.

THE APOLLO DIFFERENCE

At Apollo Fabrication Group, our passion is tackling the most complex steel challenges in construction.

As your trusted partner, we collaborate with you to win, design and execute successful projects backed by Australian made quality and a team that has forged a reputation for cutting edge solutions and stand out service.

Here's how:

Capacity

With a team of industry experts and a world-class local manufacturing facility, we are equipped to deliver major steel structures from design and sourcing to fabrication and logistics.

Design

Whether architectural or structural engineering, we collaborate with architects, engineers, builders and specialist trades people to create functional, buildable and beautiful solutions.

Solution

While steel may only be part of your puzzle, we invest the time to understand your broader vision and take ownership of our deliverables from start to finish - no passing the buck.

Quality

Quality is at the heart of everything we create. Our processes are backed by industry leading ISO certifications for the provision of steel design, fabrication and installation.

CAPABILITY

With a laser focus on the design, fabrication, coating and installation of complicated structural and architectural steelwork, we have the expertise to bring your vision to life.

TRACK RECORD

Having worked on hundreds of projects since 2000, we understand how to deliver flawless quality, precise engineering and seamless installation on time and on budget.

PARTNERSHIP

Apollo partners with construction companies on iconic projects across Australia. As well as our in-house experts, we have a trusted network of specialist partners to get the job done.

PEOPLE

We offer apprenticeships and skills development to attract, retain and upskill specialised talent from project managers and designers to welders and painters - on the job and within our dedicated 600sqm training facility.

ABOUT

AN AUSTRALIAN MANUFACTURING SUCCESS STORY

Founded in 2000, Apollo is an Australian owned and operated family business managed from their headquarters in Young, NSW.

Having started out manufacturing waste management equipment, the business has evolved to become a leader in the design, fabrication and installation of large, complex structural steel for the leading names in Australia's construction industry.

TECHNICAL EXPERTS IN STEEL

Apollo is led by a team of experienced and highly qualified industry leaders with many years' experience delivering complex steel construction projects.

APOLLO
FABRICATION GROUP

THE APOLLO STORY SO FAR...

2000 FOUNDED BY A FARMER

A farmer for most of his life, Terry Jackson spotted an opportunity to manufacture specialised waste handling equipment for agriculture and industry.

2003 OPPORTUNITY KNOCKS

Terry, his wife and two boys packed up to seize the opportunities in regional NSW, moving to Young. His sons Caleb and Nathan joined the growing business.

2006 FROM LITTLE THINGS...

After building their capabilities on smaller projects, Apollo won its first major project as part of the team building New Creation Church in Canberra.

2007 - 2009 ...BIG THINGS GROW

Word of mouth attracted more complex architectural design projects like Warragamba Dam, The Scots College, SCG Trust Office and Caringbah High.

**2010 - 2014
BUILDING LOCAL MANUFACTURING**

Apollo invested in a 2200sqm facility to enable major projects like Sydney Airport (T1), Emmanuel Baptist Church, Newington College, Bunnings Rouse Hill, Coles Gungahlin, Royal Prince Alfred Hospital and Sikorsky.

**2015 - 2018
DOUBLED OUR PRODUCTION FACILITY**

Apollo's plant grew to 2400sqm and they began importing steel. Projects include Hornsby PCYC, Wellington Jail, Norwest Hospital, Parramatta Leagues Club, UTS Central and Dubbo Hospital.

**2015 - 2018
EQUIPPED FOR CONTINUED GROWTH**

Apollo has built a foundation to handle even larger projects including the iconic Sirius Building, a landmark development alongside Sydney Harbour Bridge.

**2019 - 2024
AUTOMATION AND EDUCATION**

Apollo invested in state-of-the-art automation tools, a purpose built 600sqm training facility and new 600sqm office, Projects include Barker College, Ashfield Aquatic Centre, Wagga Hospital, Greenacre Processing Plant and more.

WE'RE LOOKING FORWARD TO THE **NEXT CHAPTER.**

SOLUTIONS

STRENGTH. SUPPORT. INNOVATION.

With Apollo the possibilities are endless, from sweeping curved roofs, high-rise lift shafts and striking stairs to structural foundations, grand architectural features and everything in between.

With a reputation for quality built over two decades, we have a proven track record of commercial, industrial, retail and residential projects across sectors spanning healthcare, education, defence, government, leisure and community.

Our suite of specialist services include:

- Design and drafting
- Steel processing
- Steel fabrication
- Steel installation
- Surface treatment
- Cranes and logistics
- Protective coatings
- Fire rating compliance
- Shop detailing

Our expert delivery teams include:

- Project managers and coordinators
- Site and construction managers
- Leading hands
- Estimators
- Safety officers
- Technical draftspeople
- Expert fabricators, painters, riggers, sand blasters, welders, coaters, installers, boilermakers etc
- Hands-on directors

END-TO-END SERVICES AND SUPPORT

As Australia's structural steel specialists, we have the people, equipment and expertise to deliver large, complex structural and architectural steel solutions - from concept to completion.

Our experienced project managers and technical specialists work with you to bring your boldest visions to life, offering expert advice and outstanding support across every stage, from initial design through to logistics and installation. Our work is underpinned by a value engineering approach that streamlines processes; optimises designs, budgets and building features; and elevates overall project outcomes.

WORLD CLASS FACILITY

CONTEMPORARY DESIGN.
STATE-OF-THE-ART
MANUFACTURING.

Apollo has invested in a state-of-the-art manufacturing plant where we design, manufacture, coat, store and deliver our structural steel solutions.

For you, it means capacity and quality you can depend on:

- 3,500 sqm workshop – manufacturing, welding, blasting and coating
- 2 x 15,000 sqm storage yards – designated for raw material, components and finished product storage
- 600 sqm office – design, engineering and project management
- Cutting edge construction and automation tools for accuracy and efficiency
- Capacity to produce hundreds of tonnes of steelwork per week

SAFETY AND QUALITY AT EVERY STAGE

A tailored safety plan is developed for every project and we offer ongoing workplace health and safety training to maximise the safety of our employees, partners and site visitors.

For everyone at Apollo, safety and quality is a core part of their responsibility. We call this company-wide quality control. Much more than simply inspecting for errors in finished parts, our approach is to build in quality and safety at every stage, with a mindset of continual improvement.

With strictly standardised processes across our supply chain, we are able to identify and resolve issues quickly, while maintaining consistent quality, safety and timeliness. With our own manufacturing facility, equipment and team, we have total control over the operations and output, so we take full accountability for quality and safety.

SUSTAINABILITY

At Apollo, we are committed to leading the way in sustainable steel fabrication. Our strong commitment to sustainability starts with the materials we choose and extends to the everyday practices that ensure we minimise our impact on the environment and contribute to a thriving economy and society.

- Solar powered production facility.
- Sophisticated waste management and recycling processes.
- Supporting local employment and training opportunities.

Achieving the highest standards

Apollo holds Level 3 certification under the Australian Steel Institute's Steel Sustainability Australia (SSA) program. This is testament to our dedication to the highest standards of environmental, social, and governance (ESG) performance and reinforces our position as a leader in sustainable steel fabrication.

PROJECT GALLERY

Apollo specialises in delivering large, complex structural steel for top tier builders and developers of industrial, commercial, retail and high-rise residential projects across Australia.

From architectural masterpieces to engineering excellence, we have proven results in sectors spanning healthcare, education, defence, government, leisure and community.

PROJECT

TJX WAREHOUSE

Marsden Park, NSW

TJX WAREHOUSE STATE-OF-THE-ART OFFICE, AWNINGS AND WAREHOUSE

TJX Distribution Centre is one of the industrial facilities completed by our construction partner FDC Construction and Fitout. It is a highly sophisticated site designed for large-scale product processing.

Apollo designed and installed approximately 800 tonnes of structural steel and 50,000 linear metres of steel purlins, forming a core element of 4,000sqm of awnings, 42,000sqm of warehouse and a large modern office space.

PROJECT

CAMPBELLTOWN HOSPITAL

Campbelltown, NSW

CAMPBELLTOWN HOSPITAL SOPHISTICATED ARCHITECTURAL STEEL AND FINISHES

Campbelltown Hospital's \$632 million, 12-storey hospital renovations doubled the facility's capacity. It features state-of-the-art operating theatres and expanded units for intensive care, mental health and women's and children's services.

Apollo was engaged to design and install 350 tonnes of complex steel structures coupled with specialist architectural coatings and protective finishes. The results speak for themselves.

PROJECT

ANDREW (BOY) CHARLTON POOL

Manly, NSW

ANDREW (BOY) CHARLTON POOL MULTI-AWARD WINNING AQUATIC CENTRE

Andrew (Boy) Charlton Swim Centre in Manly covers 5,500sqm including a 3,500sqm pool hall with a spa, leisure pool, program pool and 25m pool. It also boasts a 2,000sqm multi-storey office building with gym, amenities and crèche.

Apollo was engaged to deliver the complicated steel structure and meet the required 15-year surface treatment warranty. We partnered with Dulux to apply a 3-coat paint system to protect the steel in the highly corrosive environment.

The project was awarded the Australian Steel Institute (ASI) NSW and ACT Steel Excellence Award, and the Master Builders Association of NSW (MBA) Best Sporting Facility.

PROJECT
SIRIUS
BUILDING

Sydney, NSW

SIRIUS BUILDING REVITALISING AN ICONIC SYDNEY LANDMARK

The Sirius Building is an iconic landmark sitting alongside Sydney Harbour Bridge with 360 degree views of the harbour and skyline. Originally built in the 1980s, it has been revitalised in a major development designed to protect its rich heritage while offering modern, luxury living.

Apollo was proud to partner and deliver this landmark development which features 600 tonnes of complex architectural steelwork, including 35 modular apartment pods, 120 balconies and hoods, and 4 lift steel cores.
